

COMMUNITY CHILD CARE CO-OPERATIVE PRESENTS

GROWING STRONG IN TIMES OF CHANGE

Community Child Care Co-operative presents opportunities for networking and professional learning.

MORNING SESSION

Hosted by the Preschool Growth Program

PRESCHOOLS – CONTINUING TO GROW

With the Preschool Growth Program finishing in June, this session will examine how we continue expanding access to preschool education for children in our communities. How can we continue to grow; our preschools, our support networks, our connections with Community Services and community support organisations, our marketing opportunities and our funding? How can we grow in times of rapid change to our sector? How can we be sure that preschools are positioned to thrive and meet the national quality targets? And how can we support each other in the process?

FREE

AFTERNOON SESSION

Delivered by the Professional Support Team

THE NATIONAL QUALITY FRAMEWORK: CREATING QUALITY IN PRESCHOOLS

Everybody wants to be a 'quality service', but what does quality look like in preschools? This session will examine how quality is defined under the National Quality Framework. Is your preschool on track to deliver quality education and care as defined by the National Quality Standard? What does the NQS look like in everyday practice at a preschool? How can we be sure we are continually improving our service? And above all what practical things can we do now to ensure our preschool is on the quality track? Subsidised by Community Services.

\$33
